Jim

I got a message through Auturo about your concerns. I continue to get updates from PRP Group that the send to TCEQ.

I recommend that you send your concerns to Patricia Scott (TCEQ Attorney) and Rodney Bryant (TCEQ VCP Project Manager) and copy me and Amy Salinas.

Have you been to the PRP website?

Thanks  
Gary Moore

Jim:

My recommendation is to contact Amy Salinas, EPA Attorney, (214.665.8063, [Salinas.amy@epa.gov](mailto:Salinas.amy@epa.gov)) or Patricia Scott, TCEQ Attorney (512.239.0637; [patricia.scott@tceq.texas.gov](mailto:patricia.scott@tceq.texas.gov)). Hope this helps.

Thanks  
Gary Moore

**Subject:** CES environmental services

Hello Gary. Jim Blackburn here. We spoke a while ago about the CES Environmental Services site. I am interested in whether or not it would be possible for me to gain access to the EPA records on this case. I am looking for, among other things, documentation with regard to potential PRPs. The only PRP of which I am aware at this time is Lubrizoil. I am sure that there were many others. If I need to contact someone else about this, I would appreciate your letting me know who that should be. Thanks. Jim Blackburn.
